

App: Land use /land cover

With this app you can map vegetation types, land use and land cover. Whether used for education, science or just for fun, monitoring land use / land cover and its change is scientifically rather important and also very interesting. You will be surprised how rapidly some landscape change over time. Explore your environment and experience the dynamics of land use change.

This app is available at <https://enketo.ona.io/x/#pUxR>

Languages (other language versions will be added in the course of the project):
