

<b>City Challenge Report Card</b>		
<b>The City Challenge Theme</b>	3. Regenerating Urban Space to Connect People in a Healthy Environment Project name: Municipal Public Greenery – Mission New Park	
<b>School/Summer School</b>	Základní škola T. G. Masaryka Moravské Budějovice	<b>Teacher(s) / Disciplines</b> Jana Hanáková - mathematics, ecology Jolana Bartesová – aktivity lesson, informatics, special pedagogy Romana Průšová - English
<b>The planning phase</b>	<b>Problem</b> (The What-question)	How to connect nature and the people of our city. Adaptation of the park in front of the school for relaxation, education and for community gatherings and increasing its biodiversity.
	<b>Relevance</b> (The Why question)	Náměstí Svobody, where our school is located, is undergoing extensive reconstruction of municipal networks (water pipes etc..) done by the municipality. Related to this are the changes in this space. As part of the project, we addressed the issue of using the park for relaxation and teaching outdoors.
	<b>Expectation / Hypothesis</b>	We plan several activities that will lead to increase of the number of plant and animal species in the park and changing the park to a better place for community meetings and education.
	<b>Methods</b> (The How-question <sup>1</sup> )	To reach our goal we planned to: <ul style="list-style-type: none"> <li>• discuss our project and plans with students</li> <li>• discuss our project and plans with representatives of the Department of the Environment at the Municipal Office</li> <li>• equip the park with benches (designed by children), plant shrubs and flowers.</li> <li>• prepare a plan of modifications in the park, discuss them with the representatives of the city and, an ornithologist and a landscape architect.</li> <li>• organize brigades for cleaning.</li> <li>• hold several open events in the park.</li> <li>• promote the events on the website of our school, in the local newsletter</li> <li>• report from events on local cable television</li> </ul>
	<b>Participants<sup>2</sup></b> (The Who-question)	Ing. Jana Škodová - representative of the Department of the Environment Petr Bartoš - ornithologist Ing Helena Rokoská - landscape architect
	<b>The implementation</b>	<b>Activity 1</b> (e.g. literature, book review)
	<b>Activity 2</b> (e.g. gather data / information)	Preparation of field game - working with pictures taken by drone
	<b>Activity 3</b>	Meetings at the Municipal Office

<sup>1</sup> Please provide the keywords regarding both, the teaching approach and the research approach

<sup>2</sup> E.g. the science team members

<sup>3</sup> Please provide support if possible through pictures, sketches, charts, student reflection or such

PULCHRA PROJECT  
 WP 10 - UNIUD  
 2nd City Challenge

	Activity 4	Preparation of open meetings - Christmas tree lighting Breakfast for a blackbird
	Activity 5	Discussion with an ornithologist - hanging of bird houses
	City Challenge solution	Open events, suggestion for changes of the park presented and discussed with the municipality
<b>The documentation and reporting phase</b>	Group or class (e.g. reports, posters etc)	Presentation – Mission New Park, 2 videos, articles in newspapers 4,
	School (e.g. school web page, school newspaper)	News about events on the school website, school magazine
	Public (e.g. meeting, news media)	News about events on cable television, local newsletter Meetings with the public in park, exhibition of models on the eco-fair

**Room for additional explanations (some feedbacks on main problemes found and related solutions, or other observations are very appreciated)**
