

<b>City Challenge Report Card</b>			
<b>The City Challenge Theme</b>		Municipal public green space – Heřmanské kopce 3. Regenerating Urban Space to Connect People in a Healthy Environment	
<b>School/Summer School</b>		Základní škola T. G. Masaryka Moravské Budějovice	<b>Teacher(s) / Disciplines</b> Jana Hanáková – mathematics, ecology Jolana Bartesová – work activities, informatics, special pedagogy Romana Průšová - English
<b>The planning phase</b>	<b>Problem</b> (The What-question)	Park in front of the school – improvement of the space, biodiversity Heřmanská kopce - biodiversity School garden - its use for community meetings	
	<b>Relevance</b> (The Why question)	The park was cut down because of bark beetles, we wanted to plant greenery and use the park for relaxation and teaching. We want to maintain cleanliness and order on the Heřmanské hills, bring back the original species of plants (chamomile) and prepare an educational trail. We would like to use the school garden not only for teaching but also for meetings of different generations.	
	<b>Expectation / Hypothesis</b>	We will equip the park with benches (designed by the children), plant bushes and flowers. We will install an educational trail on the Heřmanské kopce, use the "seed bomb" method to restore chamomile and organize clean-up brigades. We will hold several open events in our school garden.	
	<b>Methods</b> (The How-question <sup>1</sup> )	<ol style="list-style-type: none"> <li>1. Discussion with our pupils</li> <li>2. Discussion with representatives of the Department of Environment at the municipal office</li> <li>3. Promotion of events on our school's website, in the local newsletter</li> <li>4. Report of events on local cable TV</li> </ol>	
	<b>Participants<sup>2</sup></b> (The Who-question)	Ing. Jana Škodová - representative of the Department of the Environment of the local municipality Local association NA HEŘMANY Members of the Pensioners' Club	
<b>The implementation phase<sup>3</sup></b>	<b>Activity 1</b> (e.g. literature, book review)	Choice of topic - collection of information about unused spaces in our city	
	<b>Activity 2</b> (e.g. gather data / information)	Work with the city's spatial plan - land owners	
	<b>Activity 3</b>	Negotiations at the Municipality Office	
	<b>Activity 4</b>	Preparation of open meetings, student proposals	

<sup>1</sup> Please provide the keywords regarding both, the teaching approach and the research approach

<sup>2</sup> E.g. the science team members

<sup>3</sup> Please provide support if possible through pictures, sketches, charts, student reflection or such

*PULCHRA PROJECT*  
*1st City Challenge*

	Activity 5	Realized open events
	City Challenge solution	Installation of an educational trail on the Heřmanské kopce, use the "seed bomb" method to restore chamomile and organize clean-up brigades.
<b>The documentation and reporting phase</b>	Group or class (e.g. reports, posters etc)	Presentation – Heřmanské kopce (3 videos), posters on the bulletin board at school and in the city
	School (e.g. school web page, school newspaper)	News about events on the school website, school magazine
	Public (e.g. meeting, news media)	News about the events on cable TV, local newspaper Meetings with the public in the school garden

**Room for additional explanations (some feedbacks on main problems found and related solutions, or other observations are very appreciated)**
